CELEBRATING EARTH DAY

Today is the 49th annual Earth Day. First held on April 22, 1970, Earth Day is widely credited with launching the modern environmental movement. Now the Earth Day Network works year-round to solve climate change, to end plastic pollution, to protect endangered species, and to proselute, educate, and activate the environmental movement across the globe.

Today throughout Holland America Line family is celebrating Earth Day. Please join us in caring for our planet each and every day by saving energy, reducing water consumption, and minimizing waste.

For more information on Earth Day, please visit www.earthday.org
